2020 COLLECTION

# OUR PROMISE

## THE FUTURE OF SUSTAINABILITY

A commitment to sustainability is the driving force behind innovation and development at Fishpond. For us, that means a continued responsibility to use our platform to protect clean water, healthy habitats, and the species that define the wild places of our planet. With the release of our first product utilizing recycled nylon fishing nets over a decade ago, Fishpond made a promise to build a better tomorrow for the environment. This year, our 20th anniversary, that meant continuing to search for alternatives in an effort to develop new products without using new resources. Through an advanced regeneration process, we are removing commercial fishing nets, carpets, and other industrial waste from landfills and oceans, and leading the industry toward a new standard. By choosing to integrate ECONYL® regenerated nylon into our product line, we are redefining the way resources are consumed in the production of our gear. Together with our line of Cyclepond recycled fabrics, Fishpond continues to measure the success of our business by the degree to which we create positive change for the future of the environment. This is not the end of the journey, just a step along the way.

To our valued partners-

This year, as we celebrate our 20th anniversary, we want to show our appreciation to all of our dealer partners, vendors, and those who have graciously joined us on this journey to create a unique, American brand. Over the years, and with your support, we have crafted a collection of products that have built a world-wide reputation for innovation through unmatched function, style, and purpose. We are proud of this achievement, but most importantly, we are grateful for the opportunity to use the voice of our brand for a far greater purpose: protecting the natural world.

When Fishpond was founded in 1999, we made a deliberate choice to disrupt the status quo in the fly fishing and outdoor industry by designing products that pushed the boundaries of color, material, and function. Fishpond's signature drop-down fly benches, one-size-fits-most vest designs, thermoformed features, and category leading concepts, have all been emulated throughout the industry. However, we continue to lead our peers in being first-to-market, and in many ways we feel we are just getting started.

Product design alone does not define the Fishpond brand. As a certified B Corporation, we passionately work to protect the natural resources that define much of our American identity. We are a tribe of many, that values the journey of exploring on the water in far-off lands, and in our own backyards. We love the natural world, but the species that depend on its health are at risk. As such, it's part of the fabric of our character to evaluate our goals and align our purpose against the reality of a changing climate.

Born and raised in Colorado, Fishpond is more than just a business; it is a creative medium, through which we communicate our devotion to the planet. Our heartbeat lies at 8,200 feet in the shadows of the majestic Rocky Mountains at Otter Creek Ranch. Here at the headwaters that feed our oceans, we are inspired to joyfully pursue the craft of developing the most functional fly fishing and outdoor products in the world.

We are 20 years young and the ideals of creativity and passion that Fishpond was founded upon have not wavered since our first products hit the market all those years ago. Thank you for joining us on the journey, and sharing in our vision to make a difference.

## THUNDERHEAD SUBMERSIBLE BACKPACK

NEW COLOR

Shale

NEW COLOR

Riverbed Camo

Yucca

Cutthroat Orange

Shown with Thunderhead Chest Pack (Not Included)

From big hikes into remote reaches of water or the urban commuter landscape of the city, we keep your most important items completely protected from the elements. This fully submersible backpack is one of our toughest bags ever constructed, made with our bombproof 1680d TPU coated recycled Cyclepond nylon, a waterproof TIZIP closure, and a sturdy harness system for a more comfortable carry. This new pack is equipped to carry and protect everything you could ever need for a day on the water. Whether in the boat rolling through rapids or on your back bushwhacking along the banks, the Thunderhead Submersible Backpack is sure to keep your cameras, lunch and tackle dry. Explore with confidence knowing that the new Thunderhead Submersible Backpack will shield all of your gear from whatever Mother Nature throws your way!

- 1680D TPU coated nylon Cyclepond fabric
- Fully waterproof TIZIP® zipper closure on the main compartment
- Water resistant zipper closure on the front pocket
- Lightweight foam shoulder strap, hip belt, and molded backpanel
- Hip belt is removable and can also be vertically adjusted for different torso lengths
- Coated webbing haul handle
- Coated webbing daisy chain and D-Ring on front panel for various accessory attachments.
- One set of Fishpond gear straps (included) that can be positioned on left or right side
- Coated webbing finger pull tabs for opening the TIZIP®
- Interior organization with one zippered pocket and one clear stash pocket for small gear
- Compatible with many Fishpond chest packs with modular buckles on the shoulder straps and hipbelt

## THUNDERHEAD SUBMERSIBLE SLING

**NEW COLOR**

Riverbed Camo

Yucca

Shale

When you need quick access to all of your gear, sling this clean design over your shoulder and charge into the elements. Built for anglers who live life in the grit of the riverbed and demand the most from their gear. Load your valuables in the roomy main compartment, lock them behind the fully waterproof TIZIP®, and submerge yourself into the environment. Anglers have gravitated towards the sling pack as a great way to carry the day's essentials without having to sacrifice freedom of movement or comfort. Constructed out of our bombproof 1680d TPU coated recycled Cyclepond nylon, the Thunderhead Sling is just as ready for what the day might bring as you are.

- 1680D TPU coated nylon Cyclepond fabric
- Fully waterproof TIZIP® zipper closure on the main compartment, in a new longer zipper length
- Water resistant zipper closure on the front pocket
- Lightweight foam shoulder strap and backpanel
- Integrated net slot
- Interior organization with one zippered pocket, and one clear stash pocket for small gear
- Exterior Hypalon® tabs and reinforced cord loops for tool and accessory attachment
- Coated webbing pull tabs for opening the TIZIP®
- VELCRO® and Hypalon® attachment points on shoulder strap
- One set of Fishpond gear straps (included)

## THUNDERHEAD SUBMERSIBLE LUMBAR

**NEW COLOR**

Riverbed Camo

Yucca

Shale

The Thunderhead Lumbar is a fully waterproof pack that is built with your comfort and personal gear in mind, even when you find yourself in the worst conditions. We designed this bag for anglers who brave conditions in search of the moment when it all goes off. The clean layout gives you a simple way to organize your gear, which can range from high end cameras, boxes of hand tied flies, to your peanut butter and jelly, all of which need to stay dry. Not only does it deliver an airtight closure system with the TIZIP® waterproof and submersible zipper, but it is also built for all-day comfort with padding in all the right places. Constructed out of our ultra tough 1680d TPU coated recycled Cyclepond nylon, our Thunderhead is as tough as the name suggests. From deep mountain canyons to the saltwater flats, the Thunderhead Lumbar is built for your next big adventure.

- 1680D TPU coated nylon Cyclepond fabric
- Fully waterproof TIZIP® zipper closure on the main compartment
- Front stretch mesh pocket with zipper closure
- Lightweight foam backpanel and hipbelt
- Interior organization with one zippered pocket, and one clear stash pocket for small gear

## THUNDERHEAD CHEST PACK

The Thunderhead Chest Pack delivers a waterproof carry system created to purposefully load all of the essential gear for a day on the water, including a net holster that seats your long or short handled net perfectly. Bring along what you need, instead of what you have. While it's a great stand-alone piece, it also integrates into our backpacks and can be lashed to your boat providing quick secure storage for wet rides. Built out of our trusted 1680d TPU coated recycled Cyclepond nylon, this clean chest pack is built to protect your gear from the elements.

- 1680D TPU coated nylon Cyclepond fabric
- Fully waterproof TIZIP zipper closure on the main compartment
- Front stretch mesh pocket with zipper closure
- Lightweight foam backpanel with integrated net slot for holding long or short handle nets. Also a D-ring for those who prefer to use a net release
- Interior organization with one zippered pocket, and one clear stash pocket for small gear
- Exterior Hypalon tabs for tool and accessory attachment
- Coated webbing pull tabs for opening TIZIP
- 1.5 inch wide double reinforced webbing shoulder straps
- Modular buckles detach from the back harness and attach to any of our compatible backpacks
- Multiple webbing adjustment points for easy fitting, and all excess webbing stows neatly behind the pack.
- Designed so that it can be worn / supported with a wading belt, or strapped to a boat with webbing pass-through on the back of chest pack.
- Front straps can be removed completely for clean and tangle free use on a wading belt or when strapped to a boat

## THUNDERHEAD ROLL TOP DUFFEL

Nothing puts a damper on a long river trip like a bag full of wet and soggy gear. The new Roll Top Duffel keeps your gear dry so you can slip on a dry warm layer at camp and fish the home pool while dinner cooks over the fire. Adventure always has a way of serving up plenty of unexpected twists, flips, and turns, so make sure you pack accordingly. Constructed out of our signature 1680d TPU coated recycled Cyclepond nylon, which has proven itself to be bombproof.

- 1680D TPU coated nylon Cyclepond fabric
- Roll top waterproof main body compartment
- Two webbing straps to cinch down over the roll top closure.
- Front stretch mesh pocket with zipper closure
- Rope haul handles on each side of the bag
- Four heavy duty boat lash tie down points
- Welded tabs on the back for attaching rod tube / gear straps (not included)
- Adjustable/removable shoulder strap with non-slip shoulder strap pad

## WINDRIVER ROLL-TOP BACKPACK

You've been planning and day-dreaming about this trip all year. Flights are booked, maps are studied, flies are tied, and gear has been carefully selected. Now you just need to get there and keep it all safe and dry on the water. The Wind River Roll-Top Backpack has ample volume to transport gear through the airports and into the wild with comfort. We improved this classic Fishpond product by adding a thermoformed back panel and adjustable hipbelt so this can be used for the long-haul.

- 1680D TPU coated nylon Cyclepond fabric
- Roll top waterproof main body compartment
- Front stretch mesh pocket with zipper closure
- Lightweight foam shoulder strap, hip belt, and molded backpanel
- Hip belt is removable and can also be vertically adjusted for different torso lengths
- Coated webbing haul handle
- One set of Fishpond gear straps (included) that can be positioned on left or right side
- Interior organization with one zippered pocket, and one clear stash pocket for small gear
- Compatible with many Fishpond chest packs with modular buckles on the shoulder straps and hipbelt

## CUTBANK GEAR BAG

\*Only waterproof/submersible up to main zipper

Designed to organize gear and keep it dry. With the Fishpond signature molded bottom and welded recycled TPU fabric, the Cutbank Gear bag covers the bases. As a specialized tackle bag that keeps gear dry on a raft or drift boat, as well as the perfect size to fit in the hatch of most all flats boats, this gear/tackle bag is an organization system that allows for easy access wherever your adventures take you. Built with our incredibly tough 1680D TPU coated recycled Cyclepond nylon, YKK water resistant zippers, and welded construction with a molded top and bottom, this is more than just another gear bag. Think of this as a gear sanctuary on the water.

- 1680D TPU coated nylon Cyclepond fabric
- TPU welded fabric construction
- YKK #8 water resistant zippers with rubber pulls
- Signature Fishpond molded top and bottom
- Included velcro fly patch for top lid
- Fully adjustable strap for shoulder or top carry
- Two clear interior zippered pockets under the top lid, and two velcro backed clear zippered pouches that can be adjusted anywhere on the bag liner.
- Adjustable Velcro® divider system
- Four heavy duty boat lash tie down points
- Dual hemostat/knife/tippet accessory attachments
- Removable padded interior that can pack flat for travel

## CASTAWAY ROLL-TOP GEAR BAG

When size and functionality are of the utmost importance, the Castaway will pull through. Designed to fit the hatches of most flats boats, and to function efficiently on rafts and drift boats. With its roll-top closure, valuable gear such as cameras and optics will remain dry with its water-tight closure. With the removable padded interior, this bag can pack flat in luggage while you bring it on your next trip headed to fish the flats or float the big water.

- 1680D TPU coated nylon Cyclepond fabric
- TPU welded fabric construction
- Roll top design for added security
- Removable padded interior with dual dividers for organization that can pack flat for travel
- Interior top pouch with two-sided zipper access
- Dual removable interior clear pockets
- Rope haul handle on top
- Exterior attachment points for rod tube straps or other tools
- Signature molded bottom

## THUNDERHEAD SUBMERSIBLE POUCH NEW

Yucca

Shale

With the same waterproof construction you've come to expect from our submersible line, the Thunderhead Pouch offers complete protection from the elements for your valuables. Large enough to keep your items dry, but small enough to stay out of the way. Simply stow and go! Tie down points offer the flexibility to integrate the pouch into a wide range of gear systems, from raft frames and wading belts to packs and large accessory pockets.

- 1680D TPU coated nylon Cyclepond fabric
- Fully waterproof TIZIP® zipper closure
- Hypalon® panel on front for tool and accessory attachments
- Two large Hypalon® panels on back with die cut slots for attaching to wading belts or raft frames
- Fits inside most Fishpond packs and vest back panels

## UPSTREAM TECH VEST

NEW

Main body fabric made from ECONYL® regenerated nylon fiber from fishing nets, carpets, and other nylon waste.

Producing the materials used in fishing gear can have a serious impact on the environment. Made with entirely regenerated nylon waste materials, like fishing nets and old carpets, the Upstream Tech Vest represents our industry-leading effort toward sustainable design. As the first vest on the market with an integrated net slot, we weren't simply content with a product that was built with environmental conservation in mind. With 14 interior and exterior compartments, including two front pockets capable of holding up to 4 large fly boxes each, these new vests allow you to carry everything but the kitchen sink. Adjustable shoulder straps, waist straps, and a front zipper closure ensure a perfect fit for a long day on the water. Remember that old shag carpet in your grandfather's den? Thanks to the effort to recover and regenerate nylon waste, it might just grow up to be a fishing vest.

- Main body fabric made from ECONYL® regenerated nylon fiber
- "One size fits most" adjustable shoulder and waist strap
- Lightweight mesh interior, and padded shoulder straps
- Integrated net slot on back panel
- 14 interior and exterior pockets
- Various Hypalon® tool attachment points for accessories
- Sternum strap buckle closure for perfect fit
- Velcro fly patch included
- Large back panel pocket for extra layers, lunch, or drinks
- Vislon® VT10 main zipper closure and removable sternum buckle
- D-ring attachment for net release
- Integrated rod holder

## UPSTREAM TECH VEST - WOMEN'S FIT

**NEW**

Main body fabric made from ECONYL® regenerated nylon fiber from fishing nets, carpets, and other nylon waste.

It's time for an upgrade! Not just to the old vest you've been wearing for years, but to the outdated fit and functionality that you're used to. Along with a lightweight design and 14 interior and exterior gear compartments, the adjustable sternum strap can be positioned wherever you please, for a completely customizable fit around the chest and torso. With the Upstream Tech Vest, we are also updating the way you think about responsible design. Using regenerated nylon from fishing nets and other discarded waste, this vest redefines the intersection of function and environmental conservation. So, the next time you take a trip to the river, you won't just be bringing all the gear you need. You'll also be carrying a message of eco-consciousness.

- Main body fabric made from ECONYL® regenerated nylon fiber
- "One size fits most" adjustable shoulder and waist strap
- Women's specific fit rides higher and can be cinched down tighter for a more customized and versatile fit
- Lightweight mesh interior, and padded shoulder straps
- Integrated net slot on back panel
- 14 interior and exterior pockets
- Various Hypalon® tool attachment points for accessories
- Sternum strap buckle closure for looser fit with adjustments for chest size and preferred height
- Velcro fly patch included
- Large back panel pocket for extra layers, lunch, or drinks
- Vislon® VT10 main zipper closure and removable sternum buckle
- Integrated rod holder

## TENDERFOOT YOUTH VEST

**NEW**

Alright kids, you deserve better! You've been out-fishing anglers twice your age for years, and it's time to gear up with the same features and designs that you'll find in our full sized vests. With 14 pockets to keep you organized on the river, mesh backing to keep you cool, and various tool attachment points for retractors and tippet holders, the Tenderfoot Vest is no 'toy.'

- 210D nylon Cyclepond fabric with ballistic fabric accents
- "One size fits most" adjustable shoulder and waist strap design
- Lightweight mesh interior
- Velcro 'loop' section for drying flies and/or attaching a velcro fly patch (not included)
- 14 pockets for keeping yourself organized on the river

## WILDHORSE TECH PACK

Driftwood

The crown jewel of the Fishpond vest line, the Wildhorse Tech Pack is a vest and backpack rolled into one. It has all the front facing pockets you'd ever need to store and easily access your gear, plus two of the guide-favorite Fishpond signature drop down fly benches with replaceable foam inserts. Then you move back, where a 1,300+ cubic inch backpack holds your rain gear, hydration bladder, and of course lunch. Nevermind getting hot either - the entire pack is lined in comfortable cool mesh.

- 420D nylon Cyclepond fabric
- Padded, contoured shoulder straps for load-carrying control and comfort
- Four large interior mesh pockets
- Three backpack compartments
- Two patented, signature molded zip-down fly benches with replaceable foam
- Built-in rod tube holder with compression straps
- Water bladder compatible
- 15 zippered pockets

420D nylon Cyclepond fabric

One size fits most

10.5" x 8.5" x 19.5" (Backpack)  
1,343 cu. in. (Backpack)

## WASATCH TECH PACK

Driftwood

Perfect for hiking into those top-secret backcountry fishing spots, or any time you're spending a long day on the water, the Wasatch Tech pack combines a vest-style front with a versatile backpack and hydration reservoir pocket. This product revolutionized the vest category with its adjustable "one-size-fits-most" suspension system. The Wasatch blurs the line between a traditional fishing vest and a technical pack.

- 420D nylon Cyclepond fabric
- "One-size-fits-most" adjustable shoulder and waist strap design
- Two patented, signature molded zip-down fly benches with replaceable foam
- Integrated rod tube holder
- Expansion zipper for larger loads
- Water bladder compatible
- 15 zippered pockets

## GORE RANGE TECH PACK

Driftwood

It's really a vest, but it has the versatility of a pack. Light, but with more pockets than you can shake a stick at (don't waste your time trying - you've got fishing to do), the Gore Range Tech Pack was designed to accommodate multiple fly boxes in a variety of sizes, plus give you easy access to those go-to patterns via either of two molded zip-down fly benches. A mesh back keeps you cool, and the numerous tabs and cord loops mean you can trick it out with favorite accessories. No need to do without anything you might need on the water.

- 420D nylon Cyclepond fabric
- 17 exterior and interior pockets
- Vertical chest pockets hold large and medium boxes
- Gear attachment tabs, cord loops, D-ring net lash, and hemostat keeper
- Two signature, zip down fly benches with replaceable foam

420D nylon Cyclepond fabric

## SAGEBRUSH MESH VEST

Driftwood

The Sagebrush Mesh Vest is still one of the most durable, and cool, vests around. It has a mesh back, so no matter the temperature you are not sweating it, and it still has side pockets that will take large-sized fly boxes without blinking. Top it off with a small molded fly bench with replaceable foam on the left, and you've got everything you need for a comfortable and productive day on the water. While looking even more the part.

- 420D nylon Cyclepond fabric
- Cool, mesh fabric
- Padded, weight-distributing shoulder straps for all-day comfort
- 10 zippered front pockets; four additional inside pockets
- Large "easy-access" back pouch
- Patented, signature zip down fly bench with replaceable foam
- Integrated tippet dispenser pocket

## FLINT HILLS VEST

Clay

It's the traditional looking vest with the modern features you'd expect from Fishpond. Only without the modern price. The Flint Hills Vest has ample pockets, cord loops and tabs for storing and securing your fly boxes, tools and accessories, and has a mesh back to keep you cool during all-day jaunts on the river or creek.

- "One-size-fits-most" adjustable shoulder and waist strap design
- Cool, light mesh fabric and padded, weight-distributing shoulder straps for all-day comfort
- Six zippered front pockets
- Large "easy-access" back pouch for raincoat or gear storage
- Gear attachment tabs, cord loops, and D-ring net lash

## OXBOW CHEST/BACKPACK

Just around the next bend they said, but that was two-dozen bends ago. You've been lagging behind, however, because there're fish to be caught. And while your compadres are waiting for the supposed prime spot to go digging through their packs for their flies and streamside tools, yours have been handy all along. The Oxbow not only possesses all the capacity you need for that venture into parts unknown, but it comes with a Savage Creek Chest Pack that's attachable via front (at the shoulder straps), or behind (to conceal what you're really up to from your friends). The Oxbow is hydration bladder compatible too.

- 420D nylon Cyclepond fabric
- Structured mesh back panel to help carry heavy loads and keep cool
- Padded contoured shoulder straps for load control
- YKK Aquaguard #8 external water resistant zippers
- Modular design docks allowing compatibility with many Fishpond chest/lumbar packs
- One large backpack compartment with 2 smaller compartments for quick access to necessities
- Net or accessory D-ring attachment tab
- Internal water bladder attachment clip (bladder not included)
- Two zip out rod tube holders
- Includes Savage Creek Chest Pack
- Hydration bladder not included

## BITCH CREEK TECH PACK

Bitch Creek flows into the Teton River, and just about every other stretch of rugged country you dream of venturing into. The Bitch Creek Backpack, is built from recycled commercial fishing nets. That means more fish for you (well kinda), so it's a good thing that the pack has a big main compartment for your gear, two external pockets for quick grabs, and room for a 2 liter hydration bladder. The mesh back panel keeps you cool, and compatibility with the Medicine Bow Chest Pack or other Fishpond Chest Packs, means you can concentrate on the task at hand.

- 420D nylon Cyclepond fabric
- Includes Medicine Bow Chest Pack
- Structured back air mesh panel to carry heavy loads while keeping you cool
- Padded, contoured shoulder straps for load control and carrying comfort
- YKK Aquaguard #8 external water resistant zippers
- Modular design docks allowing compatibility with many Fishpond chest/lumbar packs
- One large backpack compartment with 2 smaller pockets for quick access to necessities
- Two zip out rod tube holders
- Net or accessory D-ring attachment tab
- Water bladder compatible with internal attachment clip
- Hydration bladder not included

# CONSERVATION PARTNERS

The best part of fishing is getting out into the wild. By understanding river health, fishing fosters a connection to the outdoors. And it's that connection that fuels our work to protect nature and people.

The Nature Conservancy is a global organization with a local focus. Guided by science and rooted in communities, we focus on preserving the most threatened places. We have played a role in helping to improve the health of more than 5,000 miles of river. Since 1966, we have improved more than 1,000 river miles in Colorado alone, by restoring riparian habitat, and improving river flows and function.

In addition to conserving lands and rivers, we are tackling climate change, providing food and water sustainably and helping bring nature's benefits to cities. So next time you get out there, consider giving back to the wild places and rivers you love.

*To learn more, visit [www.nature.org](http://www.nature.org)*

## WESTERN RIVERS CONSERVANCY

Three decades ago, Western Rivers Conservancy set out to protect the finest remaining rivers in the West. The idea: Buy land along rivers and transfer it to the best long-term steward available, delivering permanent protection and public access for all. Over the past 30 years WRC has conserved critical stream reaches, wetlands, confluences, tributaries, side-channels and estuaries on more than 60 rivers in nine western states—places you can get out and see, fish, explore and experience. Places that are now permanently conserved and open to you.

When it comes to impact, WRC takes what may be the most effective, tangible, long-lasting approach to river conservation: land acquisition. That's why its motto is, "Sometimes to save a river, you have to buy it."

*To learn more, visit [www.westernrivers.org](http://www.westernrivers.org)*

**FLATHEAD SLING** **NEW**

As anglers, we are constantly making adjustments to take advantage of the conditions we find on the water. The Flathead Sling combines both agility, and ease of use in one comfortable system to give you unmatched access to your gear when you need it most. The sling's ambidextrous design allows the pack to be carried on either shoulder with a quick flip of the strap. Its large clamshell opening and moveable interior dividers offer tremendous carrying capacity and an organized work station. So, the next time you're swinging streamers and turn the corner to find rising fish, you won't have an excuse.

- 210D nylon Cyclepond fabric
- Ambidextrous design
- Easy-adjust shoulder strap buckle
- Cross-body stabilizing strap
- Large clamshell opening and quick access magnetic front pocket
- Two included dividers to keep your pack organized
- Hypalon® tool attachment points on top, sides, and shoulder strap
- Two large water bottle pockets
- Molded back panel with right and left hand net slots
- Attachment points on the bottom for gear straps (straps not included)
- One removable foam fly patch included

## SUMMIT SLING

When we decide to design any product, we make it to be the very best. The Summit Sling is just that. The most comfortable, durable, and design-rich sling available....anywhere. With our recycled fishing net nylon material, you can wear this pack knowing you are making a difference to help keep our planet healthy.

- 210D nylon Cyclepond fabric
- Includes our patented and signature molded drop down fly/cargo bench with outside velcro for fly foam attachment
- Hypalon and tool attachment features in all the right places
- Coated YKK water resistant zippers
- Flexible TPE lash tabs for rod tubes
- Integrated net sleeve on back panel
- Shoulder pad work station with velcro and Hypalon attachment points

## SWITCHBACK WADING BELT SYSTEM

Since our first year we have been turning the fly fishing industry upside-down with innovation and change. As we hit our 20 year anniversary, it was only fitting to take something as simple as a wading belt and reinvent it's functionality. This system includes a pack that slides independently from back to front, a molded net holster for long-handled nets, a shoulder strap with tool and fly attachment, and options to attach our new molded wading staff pouch, drink holder, and Quickshot rod holder. Functional and purposeful. Can be worn with vests, chest packs or other gear of choice.

- 210D nylon Cyclepond fabric with ballistic fabric accents
- Modular system includes a wader belt with net slot, SL pack, and shoulder strap
- Wader Belt is made with thermoformed foam for comfort around your waist, and has a built in net slot that holds mostly any size net handle
- The included pack slides from front to back on the wader belt 'rail' - allowing you to keep the belt and net in place and move only your pack in and out of your workspace
- Pack can be configured on the left or right side
- Shoulder strap can be configured on the left or right side - or can be removed completely
- Shoulder strap pad has various Hypalon tool attachment points and velcro 'loop' for attaching fly patches or drying out flies
- The underside of the shoulder strap pad has a silicone printing to minimize slip
- Pack has two main zippered pockets and holds 2-3 large fly boxes, or 4-6 slim fly boxes
- Pack has two front stretch pockets for quick access items
- Hemo's sheath hidden behind the front stretch pockets
- Pack has Hypalon attachment points for retractors or hemos on each side

## GUNNISON GUIDE PACK

Designed for guides who carry every color, of every size, of every stage, of every bug known to modern science. The Gunnison Guide Pack is built to keep copious amounts of gear organized. When you make the journey down into the depths of the Gunny Gorge, you need a fishing system that will comfortably carry all of the "essentials" for long days. The Gunnison Guide Pack combines the best features of our other proven packs, with the added volume and organization to make this the go-to system for anglers who get way out there and need it all close at hand. Constructed out of our recycled Cyclepond nylon, it carries the weight comfortably and keeps all your gear out of the way while you fish. Built with an integrated net holder, places for all your largest fly boxes, water bottles, tools, and more. This is for anglers who need it all for a successful trip deep into our public lands.

- 210D nylon Cyclepond fabric
- Zippered main storage compartment for secure fly box storage
- Signature molded zip down fly bench with 2 pieces of foam
- Exterior VELCRO® attachment for foam, tools or accessory attachment
- Exterior Hypalon® tabs and cord loops for tool and accessory attachment
- Integrated net slot
- Two large exterior water bottle pockets
- Two zippered hipbelt pockets
- Main compartment has one interior zippered pocket, one interior stash pocket, a clear fishing license slot and a key hook
- Front molded fly bench compartment has one interior zippered pocket and two elastic pockets to hold small fly boxes

## WATERDANCE GUIDE PACK

Driftwood

There's a reason that more professional guides use this pack than any other pack on the market. With capacity that will rival - or even exceed - a lot of vests, the Waterdance is considered the "ultimate" lumbar pack, with its two zippered main compartments and signature "zip-down" fly bench. Need to bring an extra spool and that large streamer box, in addition to everything else? The Waterdance devours it faster than an egg burrito on the way to the put-in.

- 420D nylon Cyclepond fabric
- Two water bottle pockets
- Can be worn as a chest, lumbar, or sling pack
- Two generously sized main compartments
- Adjustable compression strap system
- Webbing and cord loops for tools and accessory attachments (water bottle not included)
- Interior pockets for extra gear storage
- Signature, zip-down fly bench with replaceable foam
- Integrated guide net slot

## ENCAMPMENT LUMBAR PACK

More flexible than a veteran yoga instructor, the Emcampment Lumbar Pack is Fishpond's entrant into the most-versatile-pack contest. Sized for a couple of fly boxes and all your accessories, yet with enough support for heavier loads, it's constructed of recycled commercial fishing net material and outfitted with water-resistant zippers, cord loops for securing yet more gizmos, and nifty zippered pockets along the lumbar straps for quick access to the little stuff.

- 420D nylon Cyclepond fabric
- YKK Aquaguard #8 external water resistant zippers
- Structured back air mesh panel to help carry heavy loads and keep cool
- Zippered main compartment for secure fly box storage
- Additional front zippered compartment for easy access
- Cord loops for tool and accessory attachment
- Compression Straps to distribute load, and expand to hold a rainjacket or other items on the bottom
- Two exterior water bottle pockets
- Can be worn as a lumbar or sling pack

## BLUE RIVER CHEST/LUMBAR PACK

With astonishing versatility, the Blue River Chest/Lumbar has been a staple in the Fishpond line since our inception. It can be worn as a lumbar, chest pack, sling pack, or mounted onto our Switchback Wading Belt System. Regardless of how you wear it, everything is right at your disposal when you need it, and out of the way when you don't. You'll be surprised at how much you can carry in the Blue River pack.

### Khaki/Sage Green

## ARROYO CHEST/LUMBAR PACK

Built for the minimalist angler and the quick afternoon trip to the water, the Arroyo Chest Pack is big enough to fit a nymph and dry box, but small enough to be utilized as it's intended, up front and personal. Nevertheless, if you have a hankering to move fast, engage the hip straps to transform it for lumbar use.

- 420D nylon Cyclepond fabric
- Can be worn as a chest or lumbar pack
- Main storage compartment with 3 interior pockets
- Patented, molded zip down fly bench with replaceable foam
- Tarpaulin tabs and elastic loops for accessory attachment
- Attachment points for tools and hemostat
- Molded, signature, zip-down fly bench with replaceable foam
- Adjustable strap allows for the bag to be used as a chest pack or in a sling configuration

## WEST BANK WADING BELT

Why just have a belt to secure your waders and support your back? We thought about what other functions a belt might serve and we created a purposeful spot for your net, attachment slots for a Quikshot rod holder, a floating "rail" where you can strap on packs, water bottle holders, wading staffs, and all sorts of river accessories. The game has changed, and you can expect more.

- Made from thermoformed foam for comfort around your waist
- Built in net holster holds mostly any size net handle
- Wader belt 'rail' allows you to attach other items to the belt while keeping net in place
- Slots for attachment of Quikshot Rod Holder

## CROSS-CURRENT CHEST PACK

When the fishing is hot there is a lot going on and you have to be able to multitask to keep up with all the activity. The Cross-Current Chest pack is designed to keep all your essentials and boxes organized, keeping them high on your body at the ready. Slide your net out of the integrated net slot, scoop your fish, release it, grab your dry shake out of the magnetic drop down workstation, and get back those moments we all love to celebrate.

- 210D nylon Cyclepond fabric
- Compatible with all Fishpond backpacks
- Front magnetic closure pocket for small fly boxes, pucks, and other quick access items
- Front main zippered storage compartment for large fly box storage
- Two small stretch mesh pockets on the front for quick access items
- Exterior VELCRO® attachment for foam attachment (foam patch included)
- Exterior Hypalon® tabs for tool and accessory attachment on each side
- Integrated net slot on backpanel holds a long handle net
- D-ring on top center back for attaching a net release for short handle nets
- One large pocket on the backpanel with a zippered entry on each side
- Magnetic front pocket has velcro interior on one side, and 4 small stretch mesh pockets for organization
- Main front zippered pocket includes one interior zippered pocket

## RUGGED | ORGANIC | FUNCTIONAL

Fishpond's commitment to sustainability has grown, with a new collection of waxed cotton canvas responsibly sourced and certified organic, using methods and materials that have a low impact on the environment. Influenced by the early adopters of hunt and workwear, Fishpond's new collection of waxed cotton canvas inspires travel, adventure, and a journey defined by a purposeful lifestyle among the world's asphalt jungles and fields of dreams.

### JAGGED BASIN DUFFEL

Whether thrown in the back of the ranch truck, the train to the city, or the cargo hold of an airplane, the Jagged Basin Duffel will be your "go to" bag for whatever adventures you set out upon. The waxed canvas material will become better looking with age and show the character of the miles traveled.

## HALF MOON WEEKENDER BAG

The Half Moon is soon to be the best friend on your next trip, and it will allow you to move through the airport with ease. Strap a rod tube on the exterior and you are good to go with everything you need for a few days without being weighed down with too much luggage. From the urban jungle to far flung corners of the planet, this multi-function carry-on accommodates several days of clothing with organization.

- 10.10oz Certified Organic Cotton Waxed Canvas
- Nylon Cyclepond liner
- YKK main zippers and YKK Aquaguard® water resistant exterior zipper
- Fishpond signature rope handle
- Three compartment configuration
- Main compartment features mesh pocket with compression to keep clothes organized
- Exterior custom lash tabs allow for rod tube gear straps
- Hidden backpack straps for convenient carry option
- External "pass-through" channel allows for integration with carry-on luggage handle
- Adjustable, removable, padded shoulder strap

## BIGHORN KIT BAG

Originally conceived on the shores of the river that bears its name, the Bighorn Kit Bag is as versatile as you are. Store and carry a multitude of fly boxes, reels, and accessories, or remove the protective padded interior dividers and toss your boots and waders in it for the trip to the river. The Bighorn is also a great field bag, for gloves, dog accessories, radios and shells. All your gear will be easily accessible, with an anvil-style top opening, and side pockets for those must-have-now items.

- 10.10oz Certified Organic Cotton Waxed Canvas
- Nylon Cyclepond liner
- Double-canvas bottom for durability
- Recycled Cyclepond liner
- YKK AquaGuard® water resistant zipper
- Wide-mouth, anvil-style opening for easy access

## BOULDER BRIEFCASE

We all know that the most important business is done on the water, but sooner or later, you're going to get a call to come out of the woods and into the office. For best impressions, make sure you stroll into that "emergency" meeting with your Boulder Briefcase in hand. You'll appear organized, right up to the point you realize the only thing you packed were fly boxes. If you do happen to remember your laptop, hard drives, notebooks, and pens and pencils, you'll have plenty of room for those too.

- 10.10oz Certified Organic Cotton Waxed Canvas
- Nylon Cyclepond liner
- YKK main zippers and YKK Aquaguard® water resistant exterior zipper
- Fishpond signature rope handle
- Fully padded interior laptop compartment fits 15" screen
- 10 efficient interior/exterior pockets for phone, files, tickets, accessories, etc.
- Converts to a fully functional backpack

Fishpond ambassador, Paul Bruchez, rigs up for a day on the water. Reeder Creek Ranch, Colorado.

## TETON ROLLING CARRY-ON

What does a ticket to freedom look like? A well thought out travel carry-on system that is perfectly sized for your adventures in wild places or city jungles. Roll though the airport with a passport, a change of clothes, all your essential fishing gear, and a fly rod strapped to the side of your bag. Let people wonder where your travels will take you as you load your bag into the overhead compartment and settle into the flight. Built out of our 420d recycled Cyclepond nylon material for rough rides in and out of your fishing camp or quick weekend trips back home.

- 420D nylon Cyclepond fabric with ballistic fabric accents on high abrasion areas
- Carry-on size rolling luggage with retracting handle
- Clamshell zippered opening
- Compression molded bottom laminated with ballistic fabric
- Rod tube attachment on both sides of the bag (one set of gear straps included)
- Rope haul handle
- Neoprene edges on interior zipper pockets for stretch and durability on the internal zippers
- Ventilated mesh on interior pockets
- Exterior organization pocket
- Exterior zippered stash pocket

## GRAND TETON ROLLING LUGGAGE

The Grand Tetons may well be the most rugged, iconic, and beautiful peaks in the world. So it only seemed right to identify our new innovative luggage series with this majestic range of mountains. Our quest was to design the most functional, and feature rich luggage system for multi-week adventures to all parts of the world. When you need a travel carry system to hold all of the necessary gear, The Grand Teton will do the job. The separate bottom compartment is designed to securely hold six 4-piece rod tubes. This is in addition to your boots, waders, smaller nets, and much more. The upper main compartment for your clothing and other travel gear can be accessed from the interior clamshell opening for easy packing or from the top of the bag for easier access while traveling. There is just the right amount of organization outside and within, and it all comes to you in a lighter package than ever offered before!

- 420D nylon Cyclepond fabric with ballistic fabric accents on high abrasion areas
- 35" tall Rolling bag fits 6 standard length rod tubes in the protected compression molded base with rod tube cradles.
- Also compatible with the fishpond 32" Jackalope Rod Tube Case
- Clamshell zippered opening
- Compression molded bottom laminated with ballistic fabric
- Neoprene edges on interior zipper pockets for stretch and durability on the internal zippers
- PU and DWR coated base compartment keeps damp waders and dirty boots from getting your other belongs wet or dirty.
- Ventilated mesh on main body interior pocket
- Main body interior pocket can be accessed from the interior clamshell opening for easy packing, or from the exterior for easier access while travelling.
- Exterior organization pocket
- Four exterior compression straps
- Rope haul handle on top and front panel
- Retractable handle

## FLAT TOPS WADER DUFFEL

After the alarm goes off in absolute darkness.... grab a mug of coffee, then your gear bag by the door and step into the wild. It's comforting to know you'll have everything you need as the Flattops Wader Duffel has a purposeful and ventilated lower storage compartment for wet waders and boots, while the upper storage compartment is perfect for vests, packs, clothing, and the not-to-forget snacks. This is the perfect companion to the Dakota Rod and Reel Case, so you can focus on getting out the door rather than wondering where you put that other boot.

- 420D nylon Cyclepond fabric with ballistic fabric accents on high abrasion areas, and a nylon Cyclepond liner
- Large capacity main compartment with U-shaped zipper opening
- Separate ventilated bottom compartment for wet wader and boot storage
- Signature molded bottom
- Two interior zippered pockets on the underside of the lid
- Rope haul handles on each side of the bag
- Removable padded shoulder strap
- Rod tube attachment on back side of bag (gear straps not included)

## BURRITO WADER BAG

The perfect bag for your marinated waders and boots covered in river guac. The predawn gas station breakfast is made all the better by rolling it up into a burrito hiding the liquid cheese, powdered meat, and egg. The new Burrito Wader Bag does the same thing by keeping your wet river mess on the inside. With a built-in roll-out changing mat designed for dirty and wet gear that rolls up and stays secure with a simple pull of a cord. Keep clean and carry on.

- 210D nylon Cyclepond fabric main body with PU coating and DWR finish
- Drawstring bag with a large fold out mat for changing out of wet waders
- Waders, boots, and gear get rolled up into the mat and into the bag for safe transport
- Drawstring closure
- Webbing shoulder strap
- One webbing haul handle on each side of the bag

## CIMARRON WADER/DUFFEL BAG

The Cimarron's anvil-style top opening is akin to your big mouth, except that it is keeping gear inside instead of spewing your fishing stories outwards. One of the models in Fishpond's bag lineup that wins Miss (and Mister) Congeniality awards year after year, it keeps your dry gear away from your soaked kit with the ventilated bottom compartment for your wet, dirty waders. We take that back - the integrated, fold-out changing pad means your waders won't be dirty. But if they are not wet, we are taking back the bag and sending you on a coffee run.

- Nylon Cyclepond liner
- Large capacity, anvil-style wide-mouth main compartment
- Separate ventilated bottom compartment for wet wader and boot storage
- Fold-out, padded and removable wader-changing mat
- Integrated backpack straps
- Removable see-through interior "essentials" pocket
- Four interior zippered pockets
- Two exterior zippered pockets
- Two Fishpond rod tube straps

## GREEN RIVER GEAR BAG

\*Gear straps not included

Your gear deserves a place to call home. From keeping your gear organized so you can grab it quickly, to taking it out on the water fishing, we have designed a bag that covers your needs. With a refined feature set, we purposefully added what anglers need in a great bag. Everything from a waterproof molded bottom, 420d recycled Cyclepond nylon exterior, a zip down fly bench which gives instant access to your must have flies, and a deep main compartment that is customizable to match your needs.

- 420D nylon Cyclepond fabric with ballistic fabric accents
- Waterproof, molded bottom
- Zip down fly bench pocket with replaceable foam
- Padded interior divider system with VELCRO® attachments
- Built in rod tube attachment on the front
- Additional gear attachment point on the back (gear straps not included)
- Rope haul handle
- Included adjustable shoulder strap
- Hypalon® exterior tool attachment points
- Front slash pocket for pliers or hemos
- Four exterior zippered pockets
- Two additional side zippered coated mesh pockets
- Two interior large zippered pockets
- Two interior stash pockets made for extra reels or fly boxes
- Three interior coated mesh zippered pockets under the top lid

## DAKOTA ROD & REEL CASE (31" & 45")

31" Dakota  
Airline carry-on for 4 piece 9' rods

45" Dakota  
Switch and Spey rod compatible up to 13'6"

Fishing Trip Rule #742 - Every angler must have four rods on hand, even if they are just headed down the street for carp. Additionally, each rod must be matched with several reels and spare spools, which must also be available at all times. Finally, the angler must have a sandwich, bag of chips, and chocolate chip cookie within close reach. How many cases do you really want to carry for all that stuff? Let's make it easy on you...just one, the Dakota Rod & Reel Case.

- Nylon Cyclepond fabric interior and exterior
- Fishpond signature waterproof, molded bottom
- Adjustable, padded, removable interior dividers for reels and accessories
- Padded compartment with protective lid holds multiple rods in their socks
- Three mesh interior pockets
- Fishpond signature rope carry handle
- Exterior zippered pocket for keys, phone, airline tickets, etc.

## THUNDERHEAD ROD & REEL CASE NEW

## JACKALOPE ROD TUBE CASE NEW COLOR

Consider this your insurance policy against the leading cause of broken rods and smashed up reels - sub-par storage. The Thunderhead Rod & Reel Case features crushproof rod tube inserts and a molded end cap to make sure your most valuable pieces of gear stay protected. Cyclepond recycled fabric, welded waterproof seams, and a water resistant zipper keep water, debris, and the unexpected broadside wave at bay. Versatile enough to be carried through the airport or lashed to the gunwales or frame of a boat via lash tabs, make sure to stay covered in the harshest conditions.

- 1680D TPU coated nylon Cyclepond fabric
- YKK AquaGuard® water resistant zipper
- Durable, and crushproof rod tube inserts
- Molded end cap for protecting your reels
- Interior padding around reel seat
- Two lash tabs for securing to a boat frame
- Fishpond signature rope carry handle
- Removable and adjustable shoulder strap
- Velcro® accessory patch for fly storage

Ditch the rod tubes and just bring the socks! Securely fit more rods with less space in this almost indestructible alternative carry system. Feel confident your valuable rods will arrive safely no matter how you ship them. Lightweight, rigid interior tubing walls create the greatest protection for up to six 9ft, 4-piece rods.

- 420D nylon Cyclepond exterior, with ballistic fabric accents
- Designed for carry-on
- Stores up to six 9 ft 4-piece rods
- Molded and zippered top and bottom for added protection and easy access
- Lockable zippers on both ends
- Built in business card /identification holder
- Removable shoulder strap
- Compatible for the interior of most Fishpond luggage pieces

## STOWAWAY REEL CASE NEW

## RIPPLE REEL CASE NEW

The last thing you want to worry about when you travel is whether your gear will arrive safely and in good working order. The impact-resistant bottom and cushioned interior on the Stowaway Reel Case will keep up to 10 reels protected in transit. Removable, padded dividers allow for a range of configurations to fit fly boxes, and even lenses or camera bodies when the need arises. Lets face it, long flights are much better spent dreaming about the next journey.

- 420D nylon Cyclepond fabric
- Waterproof and impact-resistant molded bottom
- Exterior, coated mesh zippered pocket
- 2 interior, coated mesh zippered pockets
- 8 soft, padded, and removable interior dividers
- Soft padded interior lining
- Fishpond signature rope handle

MSRP \$99.95

Reels, tools, more reels, extra spools. You can let all that gear jostle around in your bag, getting misplaced and dinged as you rifle through looking for it. Or, you can use the Ripple Reel Cases to keep all that kit organized and safe - the padded sides and Fishpond signature molded tops and bottoms make sure of that. Your call, but we are going all-in on the latter method, before our buddies poach our favorite fishing holes.

- 210D nylon Cyclepond fabric
- Adjustable, removable, Velcro® padded interior divider system
- Interior coated mesh zippered pocket
- Fishpond signature rope carry handle
- Protective molded top and bottom

## TOMAHAWK FLY TYING KIT

Aspen Green

Unless you are lucky enough to have an area at home devoted solely to fly tying, getting all your tools and materials out and ready is half the battle in getting that box filled up. But with the Tomahawk Fly Tying Kit, you can have everything organized ahead of time, all the time. Multiple see-through windowed pouches, tubes for thread spools, and even a vise storage area. Get busy tying flies.

- Two exterior padded pockets for vise and components
- Integrated internal vise storage pocket with two zippered compartments
- Eight large removable "see-through" zippered mesh material pockets
- Large 10"x16" zippered mesh pocket
- Four 10" clear tubes for thread spools
- Two 4.5"x9" x 1" molded plastic organizing boxes for hooks, beads etc.
- Nine 4"x6", Six 5"x 7", and Nine 3"x4.5" re-sealable clear poly bags with Velcro® binding attachment

## ARROWHEAD RETRCTOR

Quite possibly the most purposeful, elegant, and timeless piece of design by mankind is the arrowhead. This iconic treasure brings back visions of our American identity like nothing else. We add to this legacy with a new age tool that is machined and hand-crafted in Colorado. Instead of stone, we use 6061 aerospace aluminum. This could be the most purposeful and useful tool for any angler.

- 6061 aerospace aluminum
- 130lb test braided nylon line, with break strength of 147lbs
- Built in carabiner clip attaches to D-rings, Hypalon® tabs, sternum strap loops, coated webbing, etc.

3.75" x 1.25"  
Weight: 0.8 oz

AHR-M (Moss)  
AHR-BR (Blackrock)  
*MADE IN USA*

MSRP \$29.95

## CONFLUENCE NET RELEASE

A complete magnetic net release system with the quality and attention to detail you expect from Fishpond. The perfect accessory to keep your Nomad Net close and always at the ready.

- 8lb magnet pull force
- 12" coil expands to 96"
- Rubber strap to attach to top or bottom of net

CNR-L (Lichen)  
MSRP \$29.95  
*Imported*

## NOMAD END CAP

Molded rubber end cap designed to fit all models of the Nomad Net Series. Adds an additional level of durability to the bottom of your favorite net.

- Fits all Nomad Nets

NEND  
MSRP \$4.95  
*Imported*

## HEADGATE TIPPET HOLDER

## HEADGATE TIPPET HOLDER XL

When you use Fishpond's all-new headgate tippet dispenser, you will wonder why no one has thought of anything like it before. The spring loaded hinge design allows an angler to easily add, remove, and carry most tippet spools with ease. Just clip it on somewhere close and forget about the days of fishing through your waders, vest or pack searching for those loose spools. Dropped your nippers on the hike in? Not to worry, the Headgate also features a built-in replaceable cutting blade for ultimate convenience.

- Anodized aerospace aluminum
- Retractor/lanyard attachment hole
- Replaceable razorblade line cutter
- Holds 7 tippet spools
- Secure spring loaded pull for access to change spools

3.5" x 4" (with clip)  
3.5" x 2.5" (without clip)  
8mm diameter aluminum  
Weight: 1.4 oz

HGTH-L (Lichen)  
*Imported*

MSRP \$19.95

The all new Headgate XL is an enlarged version of our popular Headgate. The new XL size was designed specifically for holding 4" spools so you can have the same great features as our standard size when you're saltwater fishing. Also, if you want to hold a larger variety of standard spools, the XL can hold up to thirteen. When you use Fishpond's Headgate tippet dispensers, you will wonder why no one has thought of anything like it before. The spring loaded hinge design allows an angler to easily add, remove, and carry most tippet spools with ease. Just clip it on somewhere close and forget about the days of looking through your waders, vest, or pack searching for those loose spools.

- Anodized aerospace aluminum and stainless steel
- Holds 13 standard spools
- Holds five 4" spools
- Secure spring loaded pull for access to change spools
- Two rubber gaskets for keeping spools secure
- Durable plastic clip can be clipped onto most any Fishpond pack, vest, or gear bag
- Plastic clip can be removed so that the headgate can be threaded through daisy chains or Hypalon® tunnels found on most any Fishpond pack or gear bag

6" x 4.75" (with clip)  
6" x 3.25" (without clip)  
9mm diameter aluminum  
Weight: 2.4 oz

HGTH-XL  
*Imported*

MSRP \$29.95

## 360° SWIVEL RETRACTORS

Fly fishing is a game of fooling, and the Fishpond 360 Degree Swivel Retractor is designed to be fool-proof. Once pinned to your vest or pack, it can rotate 360 degrees, thereby keeping what's attached accessible and untangled. The retractor coil hides inside the durable aluminum retractor body until you need it.

- Patented, "push button" locking pin-mount mechanism swivels 360-degrees
- Durable UV protected polyurethane retractor coil

## FISHPOND GEAR STRAPS

Because there isn't a worse feeling than arriving somewhere and realizing your rod somehow didn't. Fishpond "No Slide" fabric means that unlike mere webbing straps, your rod tube isn't going to slip out before you want it to.

- Secure Velcro® closure
- TPU coated webbing grips well, and stays dry
- Allows attachment of a rod to many Fishpond products

10" in length

## TIPPET SPOOL CORD

A tippet spool holder is a tippet spool holder, unless it's from Fishpond. The Tippet Spool Cord combines flexibility with incomparable simplicity to take care of all commercially available tippet spools. Designed for easy-on, easy-off spool management, it has clips on both sides so you can secure it almost anywhere.

- Attaches to D-rings, cord loops
- Nylon cord with plastic sheath
- Duraflex clips for easy on/off attachment

## PIOPOD (PACK IT OUT) MICROTRASH CONTAINER

The PIOPOD's are an angler essential that is designed for micro trash to be packed out and disposed of appropriately. Available in two sizes so you can pack it out regardless if your are in a drift boat, skiff, car, local stream, or backpacking deep in the backcountry. Help do your part to keep our wild places free of trash.

- Readily accepts paper and plastic wrappers, drowned cigarette butts, etc.
- Designed to facilitate containment of waste monofilament line and tippet, which can endure in the wild for hundreds of years
- Can be clipped to a belt, fabric loop, D-ring, or fishing lanyard

## LARGEMOUTH PIOPOD (PACK IT OUT)

Largemouth PIOPOD

Largemouth

Wildness connects us to the core of our purpose and makes us recognize our individual strengths. We can all make sure we are doing something every time we are out. The PIOPOD's are an angler essential that is designed for micro trash to be packed out and disposed of appropriately. Available in two sizes so you can pack it out regardless if your are in a drift boat, skiff, car, local stream, or backpacking deep in the backcountry. Help do your part to keep our wild places free of trash.

### Largemouth PIOPOD

- Rugged, durable, Recycled PP construction with unique elastomeric cap readily accepts used leader, tippet, wrappers, drowned cigarette butts, etc.
- Specially designed to facilitate containment of waste monofilament line and tippet, and other plastics which can endure in the wild for hundreds of years
- Designed to fit in any standard cupholder in your car or on your boat
- Side attachment point makes it easy to zip-tie to a D-ring or lash to a boat

## LUGGAGE TAG

Stylish, molded rubber identification tag that will take the abuse of airline travel. Known to smooth relations with pesky customs agents, from Nassau to Kamchatka.

- Clear ID window holds business card
- Flexible synthetic material to take the abuse of travel

4.5" x 2.5"

FLT-C/BO (Charcoal Burnt Orange)  
*Imported*

MSRP \$6.95

## FISHPOND SUSHI ROLL

Large streamers finally have a place to call home without being crushed, smashed, flattened and put to bed wet without having a chance to dry. The Fishpond Sushi Roll is our own unique and innovative solution for a conveniently sized carry system to protect and store streamer flies for easy viewing and selection. When not rolled, it lays flat as a working platform, but when rolled a spacial dimension between layers gives streamers the necessary space to breath. Add a little rice and it would almost look good enough to eat!

- Roll-up fly storage (great for streamers and saltwater flies)
- Ultra tough exterior fabric
- Foam spacers to prevent flies from being crushed and allow breathability
- Foam inner layer for securing flies
- Patent Pending

SR-XL(X Large)  
15"x16"

MSRP \$12.95

**FLOATANT BOTTLE HOLDER**

Can I borrow some floatant dude? Where's yours? I don't know - I think it fell out of my pack somewhere on the trail. Well it's going to cost you some tasty beverages after we're done. Hmm. See...if you had a Fishpond Floatant Bottle Holder, casually hooked to a cord loop or D-ring on your vest or pack, you wouldn't have been forced into such a deal.

- Quick clip with swivel
- TPU coated webbing body
- Stretchable elastic bottle holder accommodates most dry shake bottles
- Hypalon tab with die cut hole for the bottle cap
- Molded logo

FH-BT(Brown Trout)

- Hypalon base
- Molded logo

DSBH-BT(Brown Trout)  
DSBH-S(Steelhead)  
DSBH-CO(Cutthroat Orange)  
Imported

MSRP \$9.95

## MOLDED WATER BOTTLE HOLDER

Good things in life don't sag. Think about it. When ice cream sags, it means a surefire melty mess. When water bottle holders sag, it means losing your favorite beverage to the river gods. With Fishpond's Molded Water Bottle Holder, there's a bombproof way to eliminate sag and keep your beverage secure.

- Webbing strap attachment works with most Fishpond packs
- Locking drawstring closure at the top
- Mesh pouch with rugged ballistic nylon bottom
- Bottle not included
- 4 Way lash tab
- Hypalon attachment points for tools
- Webbing loop for gear attachment

MSRP \$22.95

MDWBH  
5" x 3" dia.  
MSRP \$19.95  
*Imported*

## QUICKSHOT ROD HOLDER 2.0

The closest thing to having a full time rod caddie on the water with you. A pack of GT's at 2 o'clock 120' out and they are coming in hot! Get that bonefish rod out of your hand and grab the 12wt that is neatly tucked onto the side of your pack. With the pinch of a buckle, the switch has been made and it's time to strip line, make the shot, and do battle. Having the right tool for the job when you need it is crucial for success. This is why we have designed a clean system that keeps your fully rigged rods fully secured, at the ready, and completely out of your way while fishing. From your favorite trout stream to far-off angling destinations, we have your success in mind.

- Updated from our first version, the new 2.0 Quikshot Rod Holder has an improved back attachment for using on Fishpond packs and on wader belts.
- Also updated from the previous version, the rod holder has been simplified to no longer use a magnetic release, which means strong winds and heavy reels won't force the magnetic clasp open. The new side release buckle is stronger but still opens with the pinch of your fingers.
- Thermoformed molded rod holder cradles any size rod handle
- Webbing loop with a polytube overlay for holding the butt of a standard rod or a fighting butt
- Quik release buckle with webbing adjustment secures the rod handle into the rod cradle, and releases your fully rigged rod with just one quick pinch.
- Includes upper magnetic closure to add additional stability when using our backpacks
- Adjustable back attachment system will attach to the molded tabs found on many Fishpond products, or to most Wader belts. The system can be adjusted to fit to 30mm or 50mm width webbing.
- Compatible with the Thunderhead Submersible Backpack, Thunderhead Submersible Sling (not recommended for right hand casters), Thunderhead Submersible Lumbar Pack, Cutbank Gear Bag, and Windriver Roll-top Backpack. \*All compatible pack models are 2018 or newer.

5.5" x 4.5" x 0.56"  
2.4 oz

QSRH-2.0  
*Imported*

MSRP \$29.95

Comin' in hot! Henry's Fork, Idaho.

Tried and true - gear built to stand the test of time.

## EDDY RIVER HAT

NOW AVAILABLE IN S & XL

## FISHPOND SUN PROTECTION

The sweeping round curved brim and the pinched crown of a cowboy hat was possibly the most defining symbol of the American West. This hat was developed to provide maximum protection from the sun and stand up to daily abuse. At Fishpond we have lived under these hats for decades and wanted to add our own spin to the American tradition with our Eddy River hat.

- Fishpond brown trout webbing accent
- 5" Brim
- Guatamalan Palm
- Available in S, M, L, XL

## SALTY DOG COLLAR AND LEASH

Brown Trout

Steelhead

Cutthroat Orange

Dogs have repeatedly asked us for this, and we listened. Don't give your dog an inferiority complex on the river by strutting around in your new Fishpond pack while he has to wear that ratty old collar. And you wonder why she keeps pulling? Because she's embarrassed by that old leash.

- Colorfast nylon webbing won't stain
- Adjustable quick-release buckle, fits most sizes
