

TIBOR2020

This year, the relentless pursuit of enhanced design and durability marches on with the introduction of our latest refinements.

It's Lemon Lime time! Lemon Lime is our newest color for Signatures & Tibors.

Be in the Sunset with our newest color Sunset Orange! Available on Signatures & Tibors.

Now you can easily remove your Push Pole Caddy to accommodate boat covers, garages, low clearance coverings, or just put it away! Fits all older models and available as an option on newer models.

Signature Series

Signed. Sealed. Delivered.

Signature Series 9-10 in Arctic White with Lemon Lime options and permit engraving.

Completely ventilated spool and frame. Robust incoming and outgoing clicker sound. Innovative, waterproof sealed drag system. Easy change from left to right hand retrieve. Will never overrun while stripping line.

size	weight	rods	frame size	capacity*

Tibor Reels

The benchmark for custom crafted fly reels.

Gulfstream in Satin Gold with Sunset Orange options and the Grand Slam engraving.

All internal parts are sealed from the outside elements. Large outer hub offers quick retrieve. Impregnated cork disc drag system delivers the strongest, smoothest and most reliable performance on the water.

size	weight	rods	frame size	capacity*
Everglades	8.5 oz.	7-9	3.75" x 1.5"	200 yds. w/ 20 lb. Micron WF8F

** Limit of up to 2 color options for Frost Finishes. For more information, contact your local dealer.

Billy Pate

The standard for the high performance fly reel.

1975 was a hallmark year for the fly fishing world. It was then that Ted Juracsik introduced his first Anti-Reverse Tarpon Reel: The Billy Pate. No other reel has matched the Pate's durability and dependability day in day out, year after year, regardless of conditions, locale or species. This precision piece of equipment is designed to withstand the most demanding fly fishing environments.

size	weight	rods	frame size	capacity*
Salmon	8 oz.	6-8	3.5" x 1.5"	230 yds. w/ WF6F
