

**NEW**  
**THERMO**  
**REEL**

The background of the image is a close-up, low-angle shot of a fishing reel and rod. A person's hand, wearing a red long-sleeved shirt, is holding the reel. The reel is a spinning model with a blue and silver body and a gold-colored handle. The rod is made of wood and has a red line attached. The background is a bright blue sky with white clouds. The text "ULTRA-ROBUST SCS DRAG" is overlaid in the center in a large, white, italicized, sans-serif font.

# *ULTRA-ROBUST SCS DRAG*

A close-up of a fishing reel and the handle of a fishing rod. The reel is silver and blue, with a black handle. A person's hand is visible, holding the handle. The background shows a body of water and distant mountains under a clear sky.

# ***EXTRA STURDY FRAME & SPOOL***

***ELIMINATES FRAME FLEX DURING EXTREME  
PRESSURE AND HARD REELING***

A close-up photograph of a fly fishing reel and rod. A hand is holding the rod, and the reel is visible in the lower right corner. The background is a clear blue sky. The text "500+ YARDS OF BACKING CAPACITY" is overlaid in large, white, italicized letters.

BACKING CAPACITY***

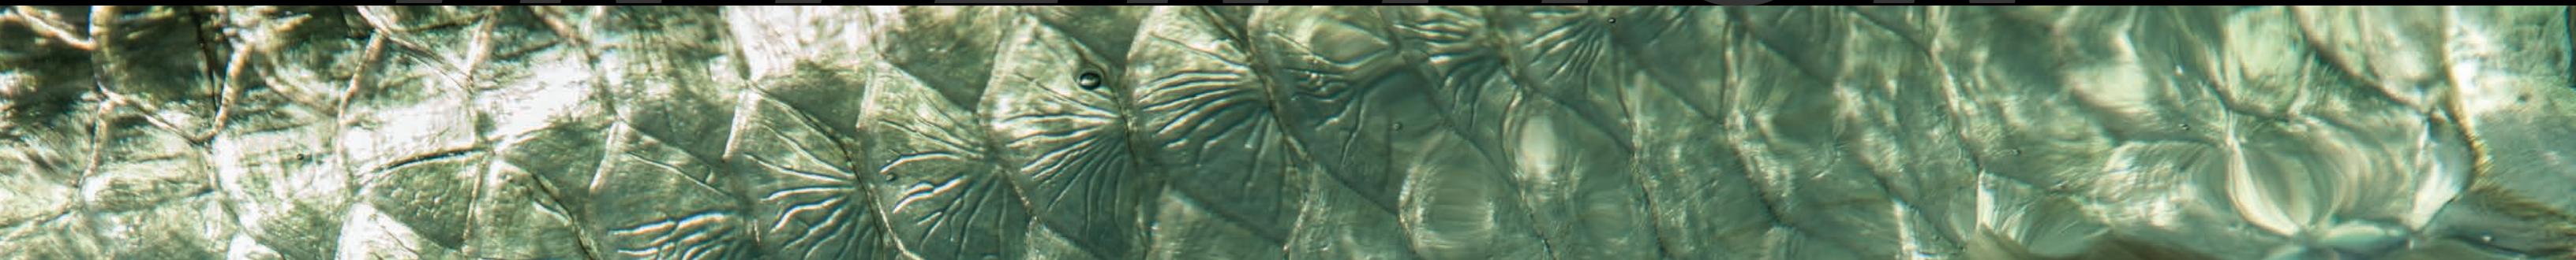

## ***THERMO REEL***

When entering the world of big game flats fishing and bluewater behemoths, heavy-duty is the name of the game. That lifetime tarpon, monster trevally, or massive shark could come into sight at any second, and for the angler hunting these big game fish, knowing your tackle can handle the fight is paramount. In steps the THERMO - heavy-duty in every sense. Designed to handle any tippet-busting, finger-cutting, hard-charging fish one may encounter. With the stopping power to keep a Giant Trevally out of the reef and the smoothness and endurance to outlast a blue marlin, the THERMO's robust heat dissipating SCS drag, rigid frame, and burly feature set will have you covered like never before. The new leader in big game reel performance and reliability.

# ***INTENTION***

# THERMO REEL

**EXTRA-LARGE HANDLE**

For stronger and easier grip in the heat of battle.

**EXTRA-STURDY FRAME**

Eliminates frame flex and rubbing of the spool during extreme fish fighting pressure and hard reeling.

**MULTIPLE SEALING RINGS**

Providing extra protection from water and dirt throughout the housing, ensuring consistent drag pressure and reliability.

**HEAVY DUTY CLUTCH BEARING**

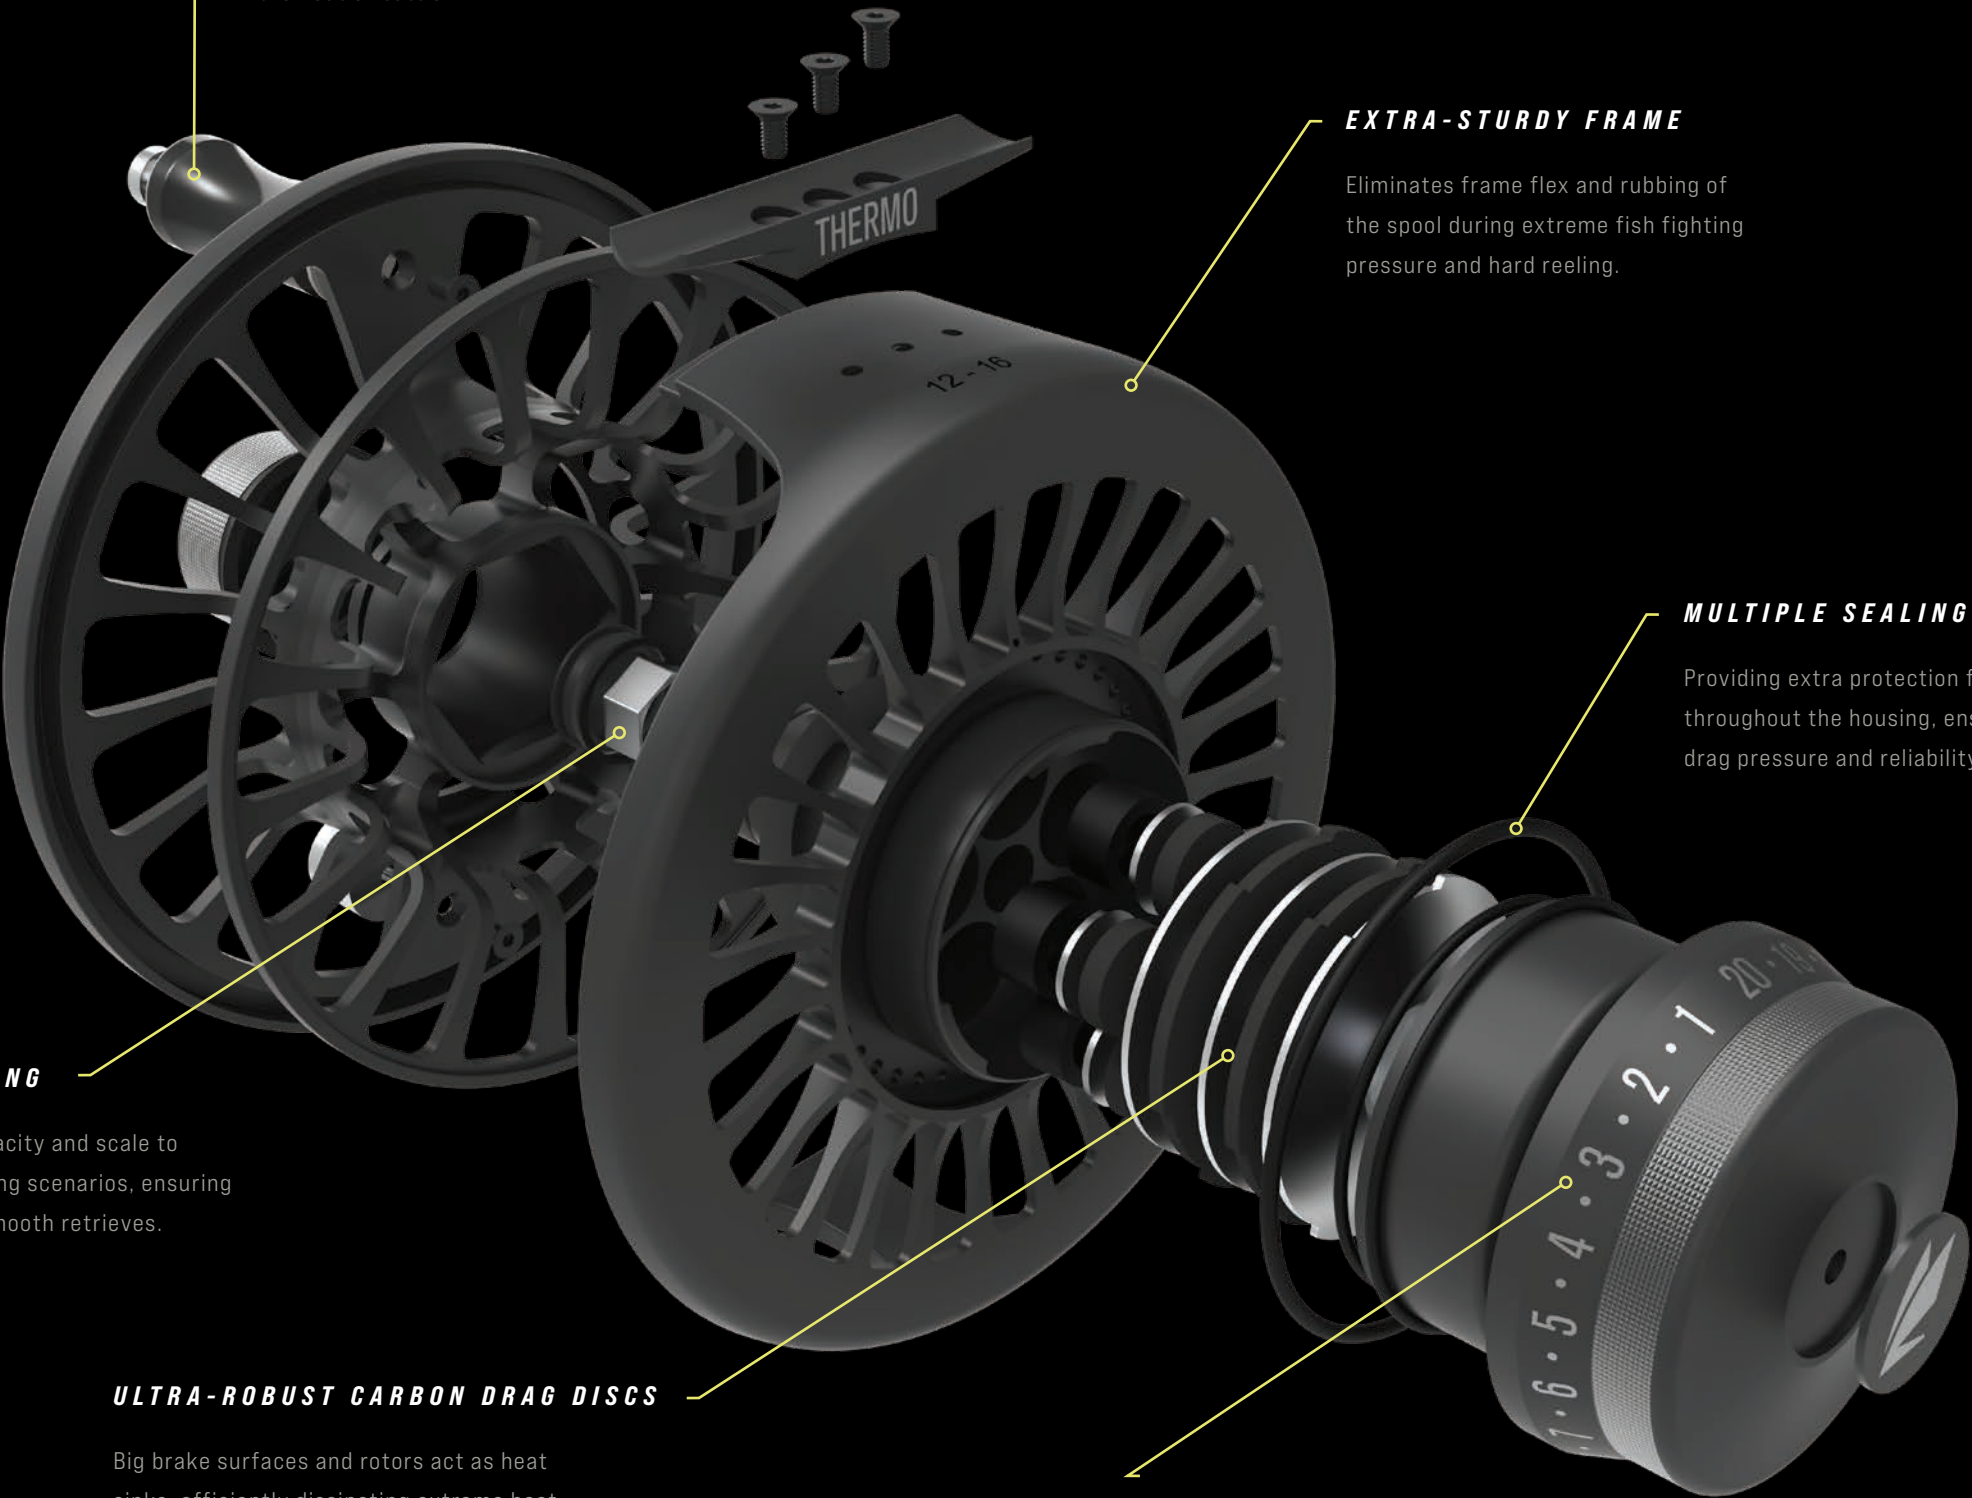

Specifically built with greater load capacity and scale to match the needs of extreme fish fighting scenarios, ensuring excellent reliability and consistently smooth retrieves.

**ULTRA-ROBUST CARBON DRAG DISCS**

Big brake surfaces and rotors act as heat sinks, efficiently dissipating extreme heat built up on fast, long, and intense runs.

**EXTRA-LARGE DRAG KNOB**

Making drag pressure settings easy to see, and even easier to adjust, when caught up in the heat of the action.

# THERMO REEL

## Benefits

- **Ultra Robust Sealed Carbon Drag consistently stops any fish in its tracks**
- **Eliminates frame flex during extreme pressure and hard reeling**
- **500+ Yards Of Backing Capacity**

## Features

- **Ultra-Robust SCS Drag**
- **One Revolution Drag Knob with numbered and detented settings**
- **Large arbor for fast line pick-up**
- **Concave, ported arbor for greater strength and capacity**
- **Large diameter ergonomic handle**
- **Quick-change spool mechanism**
- **Fully machined 6061-T6 aerospace grade aluminum**
- **Cold forged and tempered for superior strength and rigidity**

FLY REEL*

## *THERMO REEL*

It's disorienting—there is no land, only sea and sky, and everywhere marlin blitz and tuna dive and mahi swarm weed patches. There are no beaches or mangroves to stop them, only you, a reel, and a piece of tippet that you can only pray will hold.
